A MATTER FOR CONGRATULATION.

The announcement that the managers of the old Wortley store, at 17 N. Huron street, have decided to remain in Ypsilanti cannot but be pleasing to our citizens. To lose a business house is always a detriment to a city and it is doubly so when the proprietors show such hustle and business ability as have these gentlemen during their short stay here.

Coming here comparative strangers, their intention was to remain only long enough to reduce the stock to a sufficiently small amount so that packing and moving would not entail a large expense. But so well have they been received by the public and so cordial the treatment by the great crowds who have visited them, that they have decided to remain permanently and make this their home.

With this idea in view they have recently made large additions to their stock, purchasing nothing but new, nobby goods and will be in position to offer one of the largest, best selected and closest bought stocks of clothing, gent's furnishings, etc, evor offered in this section of the state.

We feel assured that our citizens will show due appreciation of the managers' efforts to give them a first class clothing store and that the gentlemeu will have no reason to regret their decision to remain here.

DROPPED DEAD.

John Engel, aged 65 years, dropped dead last Friday afternoon, from heart disease. He was sitting in his shoe repair shop at 11 S. Huron street, listening to a story when he suddenly threw back his head and gasped. Dr. Wilcoxson was immediately summoned, but there was nothing a doctor could do.

The deceased was a respected resident of the city and was always in good health until about two years ago, when the doctors informed him that he had heart disease and was liable to die at any moment. Mr. Engel was born in Germany in 1835, and at the age of 14 years came with his parents to the United States, He remained in New York state until '65, when he removed to Michigan, and settled at Manchester. About four years ago he and his family became Ypsilanti residents, where he has become well known as a shoemaker and cobbler. He leaves two sons, John Engel of this city, and William Engel of Dexter, and five daughters, Miss Anna Engel, Mrs. Emma Hayes, Mrs. Rose Esslinger, Mrs. Olive Krzysske, and Mrs. Minnie Heimendinger.

YPSILANTI WANTS IT.

Delegates from all the German societies of this city have now been selected for German day, August 9. They are as follows: Concordia Singing society, Edward Goecker; Arbeiter Verein No. 1, Wm. Baudistel; Arbeiter Verien No. 2, John Schubert; Schiller lodge No. 43, A. O. U. W., J. G. Schlenker; Schwaben Verein, J. D. Harter; Landwehr, C. R. Wendt.

These, with delegates from each of the German societies of Washtenaw county, will constitute the business committee of the association and will decide upon the place of meeting of next year. The contest lies between Ann Arbor and Ypsilanti, and both are hustling for it.

The committee of arrangements have secured Jesse Searles and Leo Stevens to make two balloon ascensions during the day. Prof. Searles will take up with him his monkey, Zip, who will make an independent parachute drop.—Jackson Press.

ANTI-JUDSON REPUBLICAN CONVENTION.

The Anti-Judson Republicans met in convention at Ann Arbor Tuesday and put a ticket in the field, adopted resolutions and refused to listen to the remarks of Judson republicans who wished to try and harmonize the two factions.

G. Frank Allmendinger was chairman and B. F. Savery Secretary, C. W. Tubbs and Bailey tellers. The following committees were appointed:

Credentials—J. C. Bemis, Ypsilanti; H. G. Prettymen, Ann Arbor City; A. J. Sawyer, Ann Arbor City.

Permanent Organization and Order of Business—A. F. Smith, Ann Arbor town; J. C. Schmid, Bridgewater; S. A. Moran, Ann Arbor city.

Resolutions—D. W. Springer, Ann Arbor city; Clare Campbell Ypsilanti; W. M. Osband, Ypsilanti town.

It was 1:30 o'clock when the convention was called together after recess and it was found that the convention consisted of 146 out of the 191 delegates which would represent a full convention. Eight precincts were missing. They were as follows: Dexter, Freedom, Manchester, Salem, Sharon, Sylvan, Ypsilanti's Fourth ward, Lima.

A. F. Smith of Ann Arbor town, read the report of the committee on order of business making the temporary officers permanent and providing for the nomination of a full county ticket.

D. W. Springer presented the following resolutions:

We, the republicans of Washtenaw county, in convention assembled do hereby resolve:

1. That we heartily endorse the policy and course of the administration in national affairs.

2. That we heartily endorse the platforms and tickets of the national and state conventions of the republican party.

3. That every citizen has the right to a free expression of his political views at the primaries and in the conventions, and any attempt to deprive him of that right is unrepublican.

4. That the members of a party ought not to be compelled to vote against the principles which that party represents in order to correct irregularities and abuses which may come to predominate to deteriment of the party, but that these abuses should be corrected within party lines.

5. That the republican party shall stand as an example of good citizenship, business like commercial policy, and the honest, efficient and economical administration of public affairs.

D. W. SPRINGER,
R. C. CAMPBELL,
WM. M. OSBAND.

Mr. Childs objected to the third resolution on the ground that he had not had his opportunity to speak, but the resolutions passed unanimously.

There was not much debating in the selection of a ticket and the following persons were all elected on the first ballot:

Judge of Probate—Henry S. Dean, Ann Arbor.

Sheriff—C. G. Darling, Ann Arbor.

Clerk—William Boyden, Webster.

Register of Deeds—Charles O. Barnes, Ypsilanti.

Prosecuting Attorney—Frank E. Jones, Ann Arbor.

Circuit Court Commissioners—W. E. Bailey, Northfield; Eber Owen, Ypsilanti.

Coroners—John Slaytor, Ann Arbor; H. B. Jones, Ypsilanti.

Surveyor—Jerome Allen, Ypsilanti.

ALL WOMEN AGREE.

A druggist in Macon, Ga., says: "I have sold a large quantity of **Mother's Friend,** and have never known an instance where it has failed to produce the good results claimed for it. All women agree that it makes labor shorter and less painful."

Mother's Friend

is not a chance remedy. Its good effects are readily experienced by **all** expectant mothers who use it. Years ago it passed the experimental stage. While it always shortens labor and lessens the pains of delivery, it is also of the greatest benefit during the earlier months of pregnancy. Morning sickness and nervousness are readily overcome, and the liniment relaxes the strained muscles, permitting them to expand without causing distress. Mother's Friend gives great recuperative power to the mother, and her recovery is sure and rapid. Danger from rising and swelled breasts is done away with completely.

Sold by druggists for $1 a bottle.

EMANCIPATION DAY A SUCCESS.

The celebration held here Wednesday in remembrance of emancipation drew thousands of colored people from all over this section of the country, and they were not disappointed for coming. The day was perfect, the crowd orderly and the speaking good.

Early in the morning the colored population began to appear in their Sunday attire, and by eleven o'clock the streets were crowded with the happy folks from darktown. The parade was not as large as people expected it to be, but it made up in loyalty what it lacked in size.

The afternoon was pleasantly spent at the fair grounds, listening to Hon. Henry Smith, Fred Merchant, Judge Newkirk, Rev. Allen, Rev. Gardam and Rev. Kennedy. The speeches were all good, altho Mr. Smith overdoes his pleading for votes on all like occasions. The colored boys beat the white trash at baseball by a score of 17 to 3.

In the evening the Toledo and Detroit bands gave an open air concert which was well received by the crowd.

But the celebration was tame until they got at it in Light Guard Hall. The large room was crowded with dancers and spectators and each colored gent tried to outdance his brother. By midnight the throng of dancers had settled down to business and such dancing has seldom been seen in the city.

The dance broke up about daybreak, and although there will be many "dead-broke" coons in town they were all satisfied, and voted thanks to the management of the celebration.

HEALTHY OLD AGE SSS

The majority of persons upon reaching middle age and past find their blood becomes weak and thin, and diseases that were easily controlled in earlier life begin to affect the constitution.

Those predisposed to Scrofula, Cancer, Rheumatism, Gout and other hereditary troubles may escape till then, but as they age the blood, so long tainted and weakened by accumulated waste matters, is no longer able to properly nourish the body, and it becomes an easy mark for disease. At this critical period of life the blood must be re-enforced before it can perform its legitimate functions and rid the system of these poisons, and nothing so surely and effectually does this as S. S. S.

S. S. S. strengthens and enriches the blood, improves the appetite, and builds up the general constitution. It is not only the best blood purifier, but the best tonic for old people. It warms the blood, tones up the nerves, removes all taint from the blood, and prevents the development of disease.

S. S. S. is the only purely vegetable blood medicine known. Not one particle of mercury, potash or other mineral poison can be found in it, and it may be taken for any length of time without harm.

S. S. S. is the only remedy that reaches deep-seated blood troubles like Scrofula, Cancer, Rheumatism, Eczema, Tetter, etc. It purifies and restores the blood to a healthy, normal condition, and makes it impossible for any poisonous waste materials to accumulate.

If you have an old running sore or an obstinate ulcer that refuses to heal, or are troubled with boils and carbuncles, try S. S. S. It never fails to make a quick and permanent cure of these pests. If your system is run down and you feel the need of a tonic, S. S. S. will strengthen and help you as it has many others to a happy, healthy old age.

S. S. S. cured Mr. H. Borden of Saumsville, Va., of a case of Eczema of thirty-five years' standing, after the best physicians in the surrounding country had failed. This was seven years ago, and there has been no return of the disease.

Mrs. D. R. Johnson, of Blackshear, Ga., was for years afflicted with a severe type of rheumatism, and had used every remedy known and recommended as a cure without receiving any benefit. S. S. S. promptly reached the seat of the disease and made a complete and permanent cure.

If you are in doubt about your disease, and will send us a statement of your case, our physician will give you any information or advice wanted, for which we make no charge.

ROYAL
Baking Powder

The strongest, purest, most efficient and wholesome of leavening agents. Not lowest in price, yet the most economical; indispensable to all who appreciate the best and most healthful food.

Our country is enjoying prosperity almost unsurpassed in its history.

For every one there is money enough to buy that to eat which is pure, sound, good, wholesome.

Why should we use cheap, impure, unhealthful articles of food? There is no economy in them; they endanger the health, they may cost life. There are reported almost daily cases of sickness caused by eating cake, puddings or biscuit made with the cheap, alum baking powders.

In all articles for food buy and use only the best. The good health of the family is of first consideration.

Alum is used in many baking powders because it makes them cheap. It costs less than two cents a pound. Alum is a corrosive poison. Think of feeding it to children! Yet the manufacturers of well-known alum powders are actually denying that their goods contain it.

The tests were varied enough to suit the most skeptical, and by the time Gen. Green, Col. Kirk and Tracy L. Towner got off the stage everybody wanted to be a hypnotist. The L. O. T. The home life of the Lang family and of all others of the Oberammgau people, with which they became intimately acquainted, flowed quietly and beautifully. Around the simple board and in the evening gatherings the members of the Lang family would manifest in all their conversation and dealings with one another a gentleness and kindness which seemed directly transported from the grand scenes they are portraying in the theatre —Times.

EXPANSION BUT NOT IMPERIALISM.

In my opinion, the prospects of carrying Illinois this fall are better than they were in June, 1892. The country is somewhat dazed as yet, but I say to you that there are several millions of men in the republican party of this country who were with it when it was a great moral force under Lincoln that are not prepared to become criminal instruments in the hands of Mark Hanna. We have got away from the basic principle of republican government and our people do not yet fully understand it, and then the democracy will carry and rule this country for fifty years to come. Let me say to you there is no question of expansion before the American people. It is a misnomer, it is misrepresentation.

The democratic party has been the party of expansion. We expanded in 1803 and got Lousiana. We expanded in 1819 and got Florida; we expanded in 1845 and got Texas; we expanded in 1848 and got New Mexico. But in every instance the treaty provided that the territory was to be a part of this republic and the inhabitants were to be citizens of this republic. That was expansion; that was growth; that was development; that was statesmanship; that was broadning out the Declaration of Independance; it was giving more people the benefit of our constitution and of our institutions; it was a blessing to humanity. But the course of the administration now looks to no such results. President McKinley over a year ago asked congress to give us a standing army, not volunteers, but a standing army of 100,000 men, increasing it from 22,000 to 100,000. Why? Because we were going to embark in the colonial policy with England to govern people by brute force and having therefore a need of the same kind of machinery that they use in Europe to crush the aspirations of men.

HEALTHY HAIR

A man with a thin head of hair is a marked man. But the big bald spot is not the kind of a mark most men like.

Too many men in their twenties are bald. This is absurd and all unnecessary. Healthy hair shows man's strength. To build up the hair from the roots, to prevent and to cure baldness, use—

Ayer's Hair Vigor

It always restores color to faded or gray hair. Notice that word, "always." And it cures dandruff.

"My business calls me out among strangers a great deal. I would actually feel ashamed every time I would take off my hat, my hair was so thin and the bald spots showed so plainly. I began the use of your Hair Vigor less than three months ago. Today I find I have as fine a head of hair as I ever had. I tell everybody what I used, and they say 'it must be a wonderful remedy.'" GEO. YEARL,
Dec. 14, 1898. Chicago, Ill.

We have a book on The Hair and Scalp which we will send free upon request. If you do not obtain all the benefits you expected from the use of the Vigor, write the Doctor about it. Address,
DR. J. C. AYER,
Lowell, Mass.

The time has come when we must have a change in America or republican institutions will be at an end. We find the age calling for manhood, calling for something like a Cromwellian policy, calling for men and not for politicians. It is asking that we step up on high ground and that we deal honestly with all questions. We see the men who founded the republican party; we see such men as Senator Boutwell, Senator Hoar, ex-President Harrison and Tom Reed and hosts of the great men who made that party, calling a halt and saying this policy must be checked or we are destroyed. There are hundreds of thousands of men in America who do not agree with us on some economic questions, but they are now coming forward, represented by such men as Carl Schurz, and declaring they will support our candidate in his integrity. They have no confidence in the president because he cannot be re-relied on.

It is this fact that gives us our strength today. Do not lose sight of that for one minute. If our great leaders had hesitated for one moment during the last four years it would have destroyed him and he would no longer be the idol of the American people that he is today. He would no longer command the confidence of those men and he would be looked upon as a politician, which would end his career. If we are true to our colors and principles and stand firm thus commanding the respect and confidence of the men who differ with us on economic questions, then the ides of November will witness a victory that will not leave seven states in the republican column.

It is therefore important that you see to it that the democracy of this great state does not flinch. We have a great future. I believe just as firmly as I see you here, that if we are true to ourselves we will rally to our support not only the enthusiastic young men of our country but the middle-aged also. Do not forget that every man who can be purchased, every man who can be reached by selfish motives will be against us. Mark Hanna's great slimy hand will come down upon the whole brood of them and gobble them up. The hope of democracy lies in a different direction. In the first place, the great army that could not be bought in 1896 is still standing and anxious for the fray. Again, our strength lies in the fact that the patriotic intelligence of America, the men who believe in the Declaration of Independence, the men who believe in human freedom and equality, these men are coming toward us. Our strength lies in the dynamic force of proper ideas and in the concentrated power of justice, two forces that has never yet been arrested and which have given the world its civilization. These are the two forces upon which we depend, and they are going to give us victory.—Ex-Gov. Altgeld.

Probably no one will object to the President's agreement to arbitrate between China and the other powers in case the former accedes to several well-defined conditions. But, it seems worth while to call attention to his refusal to arbitrate for the Boers unless the party of the second part should also request him to do so. Has the aforesaid party requested mediation in this case? We have not heard anything to justify the belief that they have.

There is little doubt that Russia is already moving on Pekin from the north, and there is a grave suspicion that she is at the same time fomenting discord among the allies and keeping them from acting until her troops can reach Pekin. The game of grab seems well under way, and McKinley has not the nerve to meet it nor to call Congress and give it the the chance to furnish him with troops to meet it.

The fact that ex-Speaker Reed has been blacklisted by the republicans was, it is said, given out at Chicago, in order to break the force of a declaration against present republican principles that Mr. Reed was about to make. This, however, will probably not prevent him from firing his shot and making a serious breach in the republican breastworks with it.

Rathbone has declared that, if arrested, he will pull down the pillars of the republican party with him. The administration can hardly let him escape in the face of Bristow's report, accusing him of direct embezzlement, and so the country may have a chance to watch him in his great Samson feat. But it will not be until after election.

Even if the democratic party is not getting them, the republicans are losing a number of very distinguished members this year. Ex-President Harrison and T. B. Reed are practically out of the g. o. p., though their former honors from that party privent their openly joining its opponents.

As the trial proceeds the full extent of the conspiracy to murder Goebel is slowly but surely unfolded, and it becomes more and more evident that Taylor is implicated, probably as an accessory before and certainly as one after the fact.

The trouble with McKinley is that he is more anxious to do the thing that he thinks will help him politically rather than one that is right. This is why he has not called Congress in extra session.

Parisians think that Americans are somewhat harsh in criticising their big show, and this is no doubt true. It wasn't to be expected that it would come up to the Chicago Fair.

A Mrs. Joy, of Chicago, who was a Miss Schwizkocswitchski, has sued for divorce. So far as known, however, she has not asked for the restoration of her maiden name.

Boston has opened free public baths. And Boston doesn't need them as badly as some cities we might name.

Truth crushed to earth will have a good chance to prove its resilient qualities when the situation in China clears up.

After all the fuss and fury, it seems that the administration has "laid down" and permitted the British lion to scoop a large part of our unquestioned territory in Alaska. But this, after all, is only what was to be expected. The President has to "scuttle" somewhere.

The republicans are talking about the ingratitude of certain corporations and ex-office holders who owe all they have to the party and yet will not contribute to the campaign this fall. Can it be that they are referring to the trust and T. B. Reed?

After awhile, when the corrected reports come in, it may turn out that the Boxers have really been giving dinners and receptions to the diplomats.

The superiority of man over woman is clearly shown by the fact that even a bald-headed man can keep his hat on without using hat pins.

The gold democrats have refused to longer vote against their party by voting for an independent ticket. Now what will the anti-imperialists do?

TIME AND SPACE are practically annihilated by the ocean cables and land telegraph systems which now belt the circumference of Old Earth in so many different directions. "Foreign parts" are no longer foreign in the old meaning of the term. Europe, Africa, Asia, are "next door" to us. What happens there to-day we know to-morrow—if we read THE CHICAGO RECORD, whose Special Cable Correspondents are located *in every important city in the world* outside of the United States. ***No other American newspaper ever attempted so extensive a service;*** and it is supplemented by the regular foreign news service of The Associated Press. For accurate intelligence of the stirring events which are shaking the nations—of wars and rumors of wars—of the threatening dissolution of old governments and the establishment of new—of the onward sweep of the race in all parts of the world—the one medium of the most satisfactory information is the enterprising, "up-to-date" American newspaper, THE CHICAGO RECORD.

FREE A large map of the world on Mercator's Projection, about 23½x16 inches in size, beautifully printed in colors, with a large-scale map of Europe on the reverse side, will be mailed to any address free of charge on receipt of request accompanied by two 2-cent stamps to cover postage and wrapping. The maps illustrate clearly how comprehensively the special cable service of THE CHICAGO RECORD covers the entire civilized world. Address THE CHICAGO RECORD, 181 Madison street, Chicago.

ALABASTINE

LABASTINE is the original and only durable wall coating, entirely different from all kalsomines. Ready for use in white or fourteen beautiful tints by adding cold water.

ADIES naturally prefer ALABASTINE for walls and ceilings, because it is pure, clean, durable. Put up in dry powdered form, in five-pound packages, with full directions.

LL kalsomines are cheap, temporary preparations made from whiting, chalks, clays, etc., and stuck on walls with decaying animal glue. ALABASTINE is not a kalsomine.

EWARE of the dealer who says he can sell you the "same thing" as ALABASTINE or "something just as good." He is either not posted or is trying to deceive you.

ND IN OFFERING something he has bought cheap and tries to sell on ALABASTINE'S demands, he may not realize the damage you will suffer by a kalsomine on your walls.

ENSIBLE dealers will not buy a lawsuit. Dealers risk one by selling and consumers by using infringement. Alabastine Co. own right to make wall coating to mix with cold water.

HE INTERIOR WALLS of every church and school should be coated only with pure, durable ALABASTINE. It safeguards health. Hundreds of tons used yearly for this work.

N BUYING ALABASTINE, customers should avoid getting cheap kalsomines under different names. Insist on having our goods in packages and properly labeled.

UISANCE of wall paper is obviated by ALABASTINE. It can be used on plastered walls, wood ceilings, brick or canvas. A child can brush it on. It does not rub or scale off.

REFLECTIONS.

[From Moran's Reporter.]

It was just too bad that some mean newspaper man should have started the rumor that congressman Hank Smith met some of his boon companions for a little conference in Judge Newkirk's office one day last week. Judge Newkirk hastened to correct the false report and says that Smith met his friends in the democratic sheriff's office. No sir, the probate office was not defiled by any of the dust off the feet of just a congressman like Smith. Only great men like Judson are allowed to grace the holy precincts of the probate sanctum and hold their political conference within its portals. Small fry like congressmen should be forearmed now that they are forewarned.

When Kingsley was a candidate for sheriff and Sharpe was the regular nominee for the state senate, the Judson people pledged their word of honor that if the antis would support Cook for register of deeds and Wheeler for representative, they would support Sharp and Kingsley loyally. The antis lived up to their agreement and Wheeler and Cook were elected but Kingsley and Sharpe were slaughtered by the Judson people. Now these same traitors are seeking another compromise. Who will be ready to enter into an agreement with such people without a bond that they will carry out their part? And who would sign the bond?

Why such haste in calling the regular republican convention, is a question that has been frequently asked during the past few days. The reason is that if the ticket were put in the field first, the Ping gang would find it difficult to induce any body of any standing whatever to accept a place on their ticket and put money in a campaign with such overwhelming defeat staring them in the face. This will necessarily weaken their ticket and lose them many votes. there can be no other result of the action of the republican county committee.

The real reason why the Judson people are so hot after a compromise just now is because they fear, if two tickets are in the field this fall, the meagerness of their support among the voters would become apparent. It would be a surprising revelation to many people if the real voting strength of the ring should be shown up. It is little wonder that the Judson people fear to risk the interesting developments that would come from the count of the ballots after two such tickets were voted for.

There is one thing that grieves The Reporter. It is that Capt. E. P. Allen cannot subscribe for this paper without Judson's consent, and so far, he does not seem able to secure that permission. Tell you what, Captain, if you will subscribe on the Q. T. we will not say a work about it. We are willing to connive with you to that extent.

Judge Newkirk and some of his friends are telling that he is no Judson man and never has been. Then pray tell why the Judson people are turning heaven and earth to keep the opposition from slaughtering him? Has that gang ever been known before to turn their hand in the interest of a man who is not the most servile tool? Then, too, who can point to a single turn of the hand ever made by Judge Newkirk against Judsonism? Don't all speak at once.

In two townships, at least, the notices for the republicans caucuses were promptly torn down within a few hours after they were posted. Wonder if this was one of the schemes to keep voters away from the caucuses! Our readers will have to judge for themselves in regard to this.

Hank Smith is nothing if not funny. His latest joke is the appointment of Hélber as a non partisan member of his congressional committee in this county! That is a typical German joke, one which grows on you the more you think of it.

$100 Reward.

The readers of this paper will be pleased to learn that that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucuos surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

CALLED TO ST. ANDREWS.

Rev. William Culver, pastor at Stony Creek has been called to the St. Andrew's Presbyterian church at Detroit, as the following from Tuesday night's Evening News will show.

There was another hot congregational meeting in St. Andrews church last night over the selection of a new pastor. The majority of the congregation had fixed upon the Rev. W. W. Culver of Stony Creek, Mich., by a vote of 53 to 31, but the elders refused to make the call. Then the presbytery appointed a committee of three ministers and two elders to effect a reconciliation, and the congregation appointed another committee of two elders and three trustees to confer with them.

The committee last night presented its report, which discarded both the popular candidates and recommended a third minister who had only received two votes at the first ballot. The congregation protested strongly against this, and Rev. W. B. Jennings, who acted as moderator, had a hard task to maintain the rules of debate.

One member asked whether in the event of the congregation coming to a different decision from that in the report the elders would give effect to it, but the elders would not pledge themselves. Then somebody moved adjournment which was voted down.

A motion was made to substitute the name of Mr. Culver for the one in the report, and it seemed to have a fair chance of carrying, seeing which the objection was made that a good many of the congregation were in the country, but this objection was knocked on the head by Rev. Mr. Barkley, who said it was their privilege to be there if they chose, but the question of adjournment had already been decided. It was decided, however, in order that there should be no question of illegality hereafter that only church members should vote.

The motion to amend the report by substituting the name of Rev. Culver was then carried 36 to 14 on a secret ballot. The call was signed by the members of the congregation, and the presbytery will be convened shortly to act upon it.

Where the Yankee Was Slow.

We want small American retailers over here, writes a soldier from the Philippines. Wherever the army goes they should follow. Something should be done to encourage them to come here. They should be guaranteed protection, and in times of trouble an asylum for themselves and their property in army quarters. We want American retailers of shoes, clothing, haberdashery, stationery, provisions and canned goods. We want small restaurants and beer saloons. The prevailing margins of profits are enormous. The stock necessary is small. A few hundred dollars would buy it. I'm beginning to think since I came over here that the Yankee is the slowest man on earth. Every other nationality is getting a hand in on the Philippines. What is the matter with the American? He isn't coming fast enough and is missing big opportunities.

Theater Etiquette in Mexico.

In a Mexican theater women always go bareheaded and the men wear their hats all the time the curtain is down. During the performance they remove them. Frequently men rise in their seats and sweep the tiers of boxes with large glasses. It is considered something of an honor to have the glasses of a swell below leveled at your box Smoking is permitted in all theaters.

The Extreme Penalty.

The present lord chief justice (Lord Russell of Killowen), years before he took silk, was sitting in court one morning, when another barrister, leaning across the benches during the hearing of a trial for bigamy, whispered: "Russell, what's the extreme penalty for bigamy?" "Two mothers-in-law," replied Russell.

THE HEALTH PROBLEM

The favorite family cathartic is Hood's pills.

WOMEN IN MARTINIQUE.

Sleep Seems to Be the Chief Industry There.

That the woman who was Napoleon's first empress, the unhappy Josephine, was born in Martinique, and lived there till she was fifteen, is remembered, perhaps, by very few who have read of the current disorders among the people of that French West Indian island, but by the residents thereof it is never lost sight of for a moment. It was in Martinique that Josephine acquired those qualities which later made her so much trouble—passion, indolence and indulgence. The conditions that molded Josephine's character still exist, unchanged and apparently unchangeable. If there has been any change in recent years the movement has been retrogressive rather than forward. Everything tends toward almost continuous slumber in the French West Indies, from the climate to the rum, and, to speak truth, no one seems in the least to strive against the slumberous influence. To the outsider sleep seems to be the chief industry of the islands; the people appear to sleep, sleep, sleep, from morning till night. Of course there are times of the day when the sleeping is more nearly general than at other times, just after the midday breakfast, for instance, and again just after dinner; then no one remains awake. The attempt to Christianize the harmless and peaceful savages who originally peopled the islands, now French West Indian, began 400 years ago, resulted in practical extermination, and the place of the caribs was taken by the negroes. Little by little since then the influence of the negro blood has increased; since emancipation in 1848 the white population has decreased, the influence and interest of the whites have grown less year by year, home and social life has grown narrower, prejudices have grown stronger and more numerous, and there is little likelihood of lasting improvement in any direction. Washerwomen in Martinique are made, not born. The strength, health and constitution required for their calling is not necessary in any other. A habit of standing for days in the cold river is cultivated from childhood.—Chicago News.

Not at 4:30 Precisely.

A commissioner representing the American art section of a certain exposition was to arrive in Paris awhile ago to arrange with the American painters and sculptors resident there for their contributions. Wishing to be brisk and businesslike he wrote ahead to several artists stating that he would be in Paris on a certain day, and at a certain hotel, and naming an hour at which he hoped each man would call upon him. On his schedule for the day was the name of MacNeill Whistler and the hour "4:30 precisely." The note he received is worthy of the author of "The Gentle Art of Making Enemies": "Dear Sir: I have received your letter announcing that you will arrive in Paris on the —th. I congratulate you. I have never been able, and never shall be able, to be anywhere at '4:30 precisely.' Yours most faithfully, J. MacN. Whistler.'"

The Changing Geysers.

It is said that the recent visitors to the Yellowstone Park have discovered that the famous geysers there are gradually subsiding. One newspaper believes that if their force continues to diminish in the degree in which it has diminished in the last four years, the geysers wil probably become extinct within a decade. This is what these recent visitors claim to have discovered: That Roaring Mountain, although still ejaculating steam, no longer roars, and therefore, no longer deserves its name; that Black Growler, in Norris Basin, is in a feeble state, and that Fountain Geyser, in the Lower Basin, and the Splendid and Beehive Geyser, in the Upper Basin, are practically dead. We have seen no evidence to prove that these reports are not true. Certainly no one could derive any benefit from their deceitful manufacture.

Long Delayed Letter Appears.

The long arm of coincidence and the delays of the postoffice are curiously illustrated by the following story. A family took a house one autumn at the seashore. The husband went down first of all to see that all was well. His wife wrote to him. That letter did not arrive. It never transpired why. Perhaps the missive hitched on to a ledge inside a wallbox, as has been known to occur, and remained there till the box was cleaned or itself was knocked off by other letters. The next year the same family took the same house for the same time. Before they had been there a week the missing letter arrived. It bore the postmark of the day before, and there was no explanation.—Chicago News.

Enocomizing By Removing Judge.

Removal of a judge from office for purely economic reasons not personal to him or relating to his administration of the office is held in McCulley vs. State (Tenn.), 46 L. R. A. 567, to be not authorized by a constitutional provision for the removal of a judge by concurrent vote of both houses of the general assembly, after notice to the judge, accompanied with a copy of the causes alleged for his removal.

At the Dinner Table.
